

Space Coast Jr./Sr. High School Musical Performances

With Ms. Linda Woodrich & her talented Students

Thank you to Linda Woodrich and her talented students for making this video for the arts festival. These students are all playing music they are learning in their Strings Class at Space Coast Jr/Sr High School.

Ms. Woodrich introduces the musicians along with the title of the piece they are playing for you.

Your students can practice their listening skills, manners, when to clap, etc. Use the video to introduce your students to different types of music.

When showing this video to your students some applicable access points to consider are:

1. Respond to music to demonstrate how it makes one feel
2. Show appreciation for a performance.
3. Demonstrate respect and appreciation for a performance.

Sit back and enjoy these talented students perform a “private” concert for you and your students! ENJOY!
