Launch IT Frequently Asked Questions

Application & Acceptance

Is this training program right for me?

This six-month program is designed for veterans and adults with disabilities over age 18 who have an interest in a career in the IT industry. Potential candidates should have basic computer experience, and the problem-solving capacity to develop skills, knowledge, and workplace readiness. All candidates must self-identify as a person with a disability and are expected to pass a competency assessment to determine their ability to work at the required levels of proficiency in math, communication, and social skill to be successful within the context of the program.

How do I know if my application was received?

You should receive an email after completing each step of the application process. If you do not receive this email, please contact Susan Bassett at 321.632.8610 ext. 296 or via email at sbassett@bacemploy.com.

When will I know if I have been accepted?

Acceptance to the LaunchIT program is on a rolling basis. Acceptance decisions are made after you have successfully passed your assessment and you have completed a virtual interview with a member of the Codecraft Works staff.

Is this a virtual training program?

Launch IT training will be conducted via virtual platforms that are accessible to those with unique abilities, including those with visual impairments or who are deaf or hard of hearing.

Is this program open to people outside Brevard County?

Because the course work will be virtual, applications are open to individuals located anywhere in the US.

Can I apply for this program from my smartphone?

No. The testing and application process must be completed on a desktop or laptop computer.

What are the minimum technology requirements to participate in this program?

Trainees need a reliable high-speed internet connection, computer or laptop with modern browser, headphones or speakers, microphone, and a web camera.
